

The Ben F. Meek Museum and the Tommy Thompson Hall of Fame at Kermit High School have been ongoing projects for the Student Council, spanning three school years. The idea for these two memorials to recognize outstanding exes and preserve symbols of the school's past took shape in the 1992-93 school year under the direction of then president of the then Student Council Andrea Lowe. In 1993-94 under the direction of Dorimina Carrasco, the council inducted the first recipients into the Hall of Fame located in the foyer of the library. At left, the 1994-95 Student Council president Bubba Bowerman officially opens the museum located behind the principal's offices by presenting the key and care of this facility to Librarian Donna Fogle.
