

G. E. Thompson
High School Principal

Dear Students:

Our school has attained an enviable place among the schools of Texas, a position that is the result of wonderful cooperation between faculty and student body, all working together for a better school system.

As a result of the efforts of our "Sandstorm" staff, we have pictured herein some of the work, the play, the responsibilities and the privileges of our school citizens during the current year, and I can, with full appreciation and admiration, say that the qualities so desired in American citizens are exemplified in the everyday ideals and practices of our own boys and girls.

Contribute the same loyalty, industry, honesty and intelligence to your country and Kermit High School will be proud to number you among its alumni.

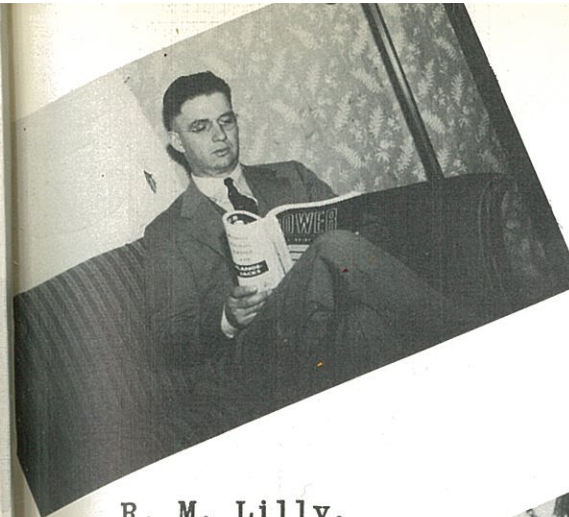

Sincerely,

G. E. Thompson
