

THE GRADE SCHOOL----Not only fundamentals are mastered but talents are developed, within it's class rooms.

THE PRIMARY BUILDING---- where little children's laughter is often heard, and new ideas of life are formed in their minds.

THE FIELD HOUSE----where the results of losses and victories are felt by each boy in a way that only those who have a true Kermit High School spirit can share.

THE GYM----where the body is physically developed in order that each young American may do his part in the defense of his country.
