

K. H. S. PATRIOTS

The students of Kermit High School proudly dedicate this page to all graduates of our school who are now in the armed service of their country. An effort was made to include names of all who had entered the service prior to March 1, 1942. These and those others who have joined the service since that date, we, the faculty and student body of K. H. S., salute! It is our desire to make any contribution we can toward winning the war, and your example will encourage every patriotic graduate and student of Kermit High School to do his part in making victory possible.
