

CLASS PROPHECY

Because some of us were anxious to know we made a visit to the May Queen who can look into the future and she told us of some interesting things that are to happen to the Senior Class ten years from now.

In Evelyn's future life there is to be a beautiful office in a prosperous business section of Los Angeles, California. Here she will be the private secretary of Cecil Odem and Co. In a few years there will be a new secretary to take the place of the one the President took as his wife.

The wise old Queen told us that in a few years Christine Alexander will be the Dean of Nurses at the Methodist Hospital at Dallas. She will love her work but she will look with interest at every sailor and soldier in uniform but she will be faithful to her Commando.

If the May Queen is right, Jimmy Ferguson will be married to his beautiful dark-haired wife and they will be blessed with a little Jimmy, Jr.

We learn that since John Haley loves his wide open spaces, he will some day have plenty of them for he will own the largest ranch in Wyoming and it will be perfect with John running it.

We see before us now a very successful newspaper editor, who is Joyce Swindle and she now owns the famous New York Times. Her hobby is editing the Winkler County News.

Barney Roark is very successful making everyone think that he likes to be a hardware merchant but we'll see if he doesn't crash Hollywood when he goes there in a few years to become the "Great American Lover" in the Westens.

We see Margaret Schofield far off in another part of the world. She is in the Foreign Service of the Nurses Corps and is in South America helping the ambulance driver out of his difficult love affair with a South American Belle.

John Fitzpatrick, who has been successful making a career of his business knowledge, is married and is in China as a broker.

We surely were not surprised when the May Queen could see that Bobby Joyce Tubbs was winning the hearts of the radio audience, singing over the new television radio. She made a very successful debut into music.

Ten years from now you will see Jeep Wheatley campaigning for County Attorney of Winkler County.

It is foretold that Jean Leese will be a professional dancer. If you attend the President's Ball at the Waldorf-Astoria in New York a few years from now you will see Jean appearing personally in her floor-show.

On one of your trips to Fort Worth ten years from now you will find an old friend of Kermit running the Green Hat Tavern seven miles out of the city. The proprietor is Jack Grigsby in person. He is also the bartender.

Inez Powers has developed into the greatest homemaking teacher Kermit has ever seen. She also is popular with the soldiers from Pyote.

We knew she would see that when Walter Hahn has finished a music course in college he would be famous as the director of his band in the Army. He is a Buck Private.

Our suspicions were confirmed when she told us that S.E. would be married when school is out. We see him, a few years from now, happily busying himself around a pretty little house near a studio in Hollywood. He pauses often in his housework to listen for a certain footstep that will say that his wife, who is a private secretary for the most famous director in Hollywood, is at home. His charming wife is our own Doris Pruitt.

Well, it seems that Nig Allen is lost. We see him in Japan somewhere, asking a small Japanese child if this is where Tokyo used to be. It seems from the uniform that Nig has finally become a First Class Private.

The fair prophet foresees that Marion Watson shall still be following the Army around, demanding that Uncle Sam release her husband.

J. T. Wilcoxson is a famous business man. He is president of the largest bank in New York and is making a name for himself on Wall Street. Letia McIver, his wife, is also making a name for herself as a well-known society lady who is living out of New York a ways and her hobby is giving dinners for her husband's associates.

Being farther informed about the future of these classmates we can tell you this; if you are in New York ten years from now you will see a handsome man coming out of a Large Church, get into a gleaming car, and drive off with the lady who was waiting in it. This man is Bill Collins.

Doris Hammock will be having the time of her life, rushing around Sudan with a Major in the Army chasing her with the wedding ring to match the engagement ring on her finger. Harold Bounds will make a good superintendent of Kermit High School.

Clara Mae Brewer is seen posing her hands for a famous add company sponsoring Jergen's Lotion.

Robert Griggers has been seen building huge bridges and dams in Africa. He is a Civil Engineer.

Unita Munn has finally become a famous movie star and is seen giving interviews for her public.

Borden Clifton is in the first stage of Heaven, as he is a Major in the Army stationed in Honolulu and he is having a nice time with the dark-skinned girls of Honolulu.

To you the Senior Class of 1943 of Kermit High School, we express our sincere hopes that the future may hold for you only happiness, success, and joy in all things that your ambitions may lead you to undertake.

"Although your paths may lead different ways,
You will always share memories of happy school days.
"What ever you may be, though scattered wide and far,
We know you'll be the best of whatever you are."
