

S. M. Melton, Superintendent

Mary Norris, secretary to Mr. Melton

The journalism class and the sponsors of the annual are to be congratulated for the splendid work achieved in publishing this issue of the "Sandstorm." It is a credit to the school and a symbol of the high quality of the whole student body. Kermit can boast not only of fine, modern, splendidly equipped school buildings, but it can also boast of the finest group of young people to be found anywhere. We are proud of our school annual, but we are prouder of the boys and girls, the faculty and the organizations and activities that have made the annual a success.

A school annual reflects the character of the student body, and in future years those who knew and loved Kermit High School and were a part of it will derive much pleasure from reading the "Sandstorm" for 1946-47, finding therein a chronicle, a picture and panorama of school life for that year, one of the most eventful in the annals of Kermit Schools.

Sincerely,

*S. M. Melton*
