

## The Staff Says —

We, the staff of the 1947 Sandstorm, hope that we have prepared a yearbook that in years to come will recall to you treasured memories of life in KHS.

These pages will tell your story. The book will represent a year of your high school life. We have put our greatest effort behind each page, hoping to record your activities in a manner pleasing to all. If we have done this, our aims and objectives will have been achieved.

## DEDICATED TO YOU . . . .

and you and you, and to all the students of KHS. During your high school life you are developing into the young men and women who are essential to our nation if democracy is to prevail. You are forming the habits that will stay with you always, forming the ideals that will shape the world of tomorrow.

We, the annual staff, wish to dedicate these pages to the student body because we believe in you. You are honest, dependable, good sports and friendly. We are proud of you and think you are tops.
