

The Physical Education Department provides an outlet for the energy of the students. Here instructions are offered in basketball, football, tennis, and calisthenics. Here the ideals and practices of good sportsmanship are promoted.

The girls of KHS receive pointers in volleyball, baseball, tennis, pingpong and archery. Class lectures include a detailed study of social hygiene as well as highway safety. Here the girls learn to work together and play together.

The Department of Science offers a good foundation in chemistry, physics, biology, and general science. Here students attempt to unravel the mysteries of plant and animal life. Here in lab work they see for themselves different chemical reactions.
