

KHS Campus Life

Foreword

Life's most priceless possession is memory. Confusing, bewildering and unforgettable events often assume their true perspective as they take their places in the world of remembrances. Many times the greatest happiness exists only in the beauty of retrospect.

This 1964 edition of the Sandstorm is attempting to capture all the people, places and activities of KHS that might be memorable to you.

The future is determined often times by the past. It is hoped that this book has captured for you some of the memorable events that helped mold your destiny, and that the years spent in KHS were meaningful, helpful and important.
