

Homemaking, Industrial Arts, Improve Skills

The four Homemaking courses provide opportunities for students to gain knowledge which contributes to an increased understanding of self, family, and friends, and skills in decision making and assuming responsibility with less dependence on adults. It provides learning experiences pertaining to the needs and interest of family, housing, foods, clothing, relationships, health, care of the sick, and child care. Supervised home experiences reinforce class learning, making the home a part of the instructional laboratory in all homemaking courses.

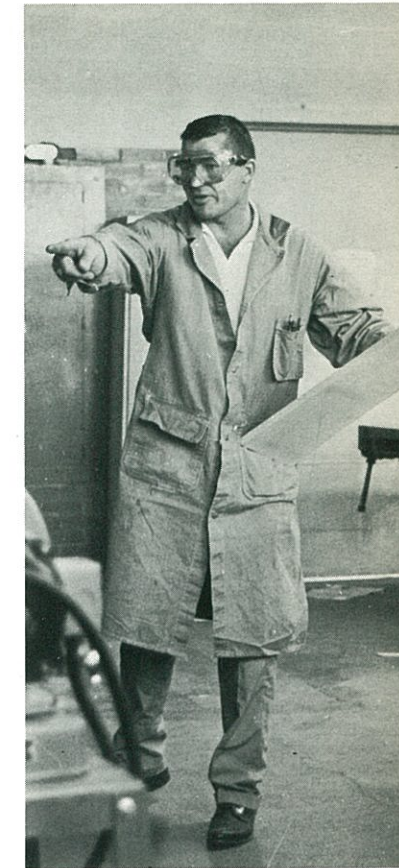

The Industrial Art Courses include General Metal, General Woodworking, Woodworking II, General Drafting, Pre-Engineering Drafting, Welding, and General Electricity. Each of these classes specialize in its own field.

Tommy Shillingburg assists Chester Nolen build a barbecue pit in Welding class.

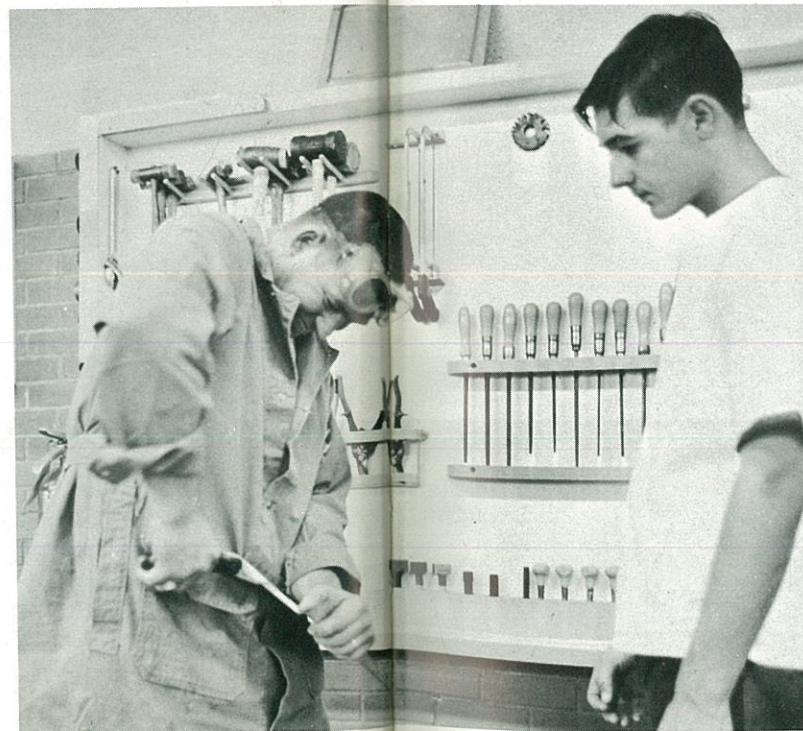

Mrs. Patsy Mayer assists Janis McKelroy in fitting her wool suit made in Homemaking III.

Instructions are given by Mr. Herman Barrs in Woodworking I.

Marsha Wilcoxson acts as hostess by serving Susan Locklear in Homemaking I.

Mr. Herman Barrs bends a piece of sheet metal for Eddie Hazel in General Metals class.

Judy Mayer samples the dish that was prepared in Homemaking I.
