

The ladies of the Kermit Junior High School cafeteria perform the task of feeding our students each day, five days a week. In order to have the meals ready for the lunch hour, these ladies begin preparing the food at 8:00 a.m. each morning. The food is cooked and kept warm in enormous pots while waiting for approximately 350 ravenous students, not to mention their teachers. They make all their own delicious pastries and hot rolls, which adds the touch of home.

After the lunch hour, the ladies must then clean up the kitchen and dining area; completing their day at about 3:00 in the afternoon. All meals are planned and approved by Mr. Karlik.

Our sincere appreciation goes to the custodial staff which keeps our Junior High and all its facilities clean. With everything clean and running smoothly, a comfortable medium for learning is maintained.
