FRESHMENFRESHMENFRESHMEN

As the Freshmen of '75 entered the halls of KHS for the first time, they realized that their goals in education have really begun. You might say that they were the "New-Seekers" of Kermit High School. They strived to let the upper-classmen know that they were in the race and running strong. Although everything was strange to them at first, the Freshmen soon became loyal Jackets and added zest to the spirit at KHS by backing school activities. Their spirit won them the "Spirit Stick" several times. They participated strongly in the Junior Olympics in benefit of the United Fund. They promote spirit of their team by yelling at the flag pole and working for their school in the concession stands.

During the year it was a beginning for them, learning all types of unknown questions, gathering experience, meeting new friends, and learning the "ways" of KHS.

Freshman sponsors are Jennifer Anderson, John King, Lee Harris, Wayne Calk, and Ron Leach.
