Oct. 3, marked another loss (17-7) for the Jackets when they went down to the Eagles. Topinka stated that the Jackets didn't do very well on the offensive team but they did improve in their throwing efforts. Defensively, Topinka pointed out that the Jackets kept the Eagles well below their season average. Topinka's overall opinion was: Pecos had the best football team although we had the opportunity to win the game when they fumbled the ball at their 24-yard line and we returned the favor on our first offensive play which swung the momentum back to the other side.

Eaton carries for yardage.
