

Foreword

In this 200th anniversary year of the United States, everything seems to revolve around the "Bicentennial Theme". This is all well and good because most of those 200 years were really hard ones. We all realize how hard it was getting a country started and keeping it going through 200 years, to the point of greatness that it is today.

For the most part, the '76 Sandstorm is for you, the individual. For this reason we used some "Bicentennial" related material. The Sandstorm was designed for you to remember, enjoy, and recapture the meaning of your years at Kermit High School. We did not want to overload "your" yearbook with old pictures and sayings relating back to the United States as a youngster. We just wanted to associate the past 200 years with our own pictures relating to the present life and the people who will make up the "Spirit of '76".
