

**REMEMBER** the time this year you took for love. You loved the excitement of football games. You loved the new look of the KHS band and the flashy flag corp. You loved being a senior. You loved making the drag. You loved making A's --or sometimes just passing. You loved being finished with your research paper. And you loved that special person in your life. Love is the thread of purple and gold in a tapestry of gray.

**REMEMBER** the time this year you took for friendship. You took time to cultivate a shallow relationship into a deep and lasting friendship. You took time to make friends with yourself, learning to be grateful for your strengths and learning to strengthen your weaknesses. You took time to make friends with education, realizing it to be a friend who is very dependable. You took time to make friends with life, giving it a fair chance as one does a friend. It is true that friendship is the source of happiness.

**REMEMBER** the time you took to make this a Year To Remember.
