

Principal J. G. Roberts

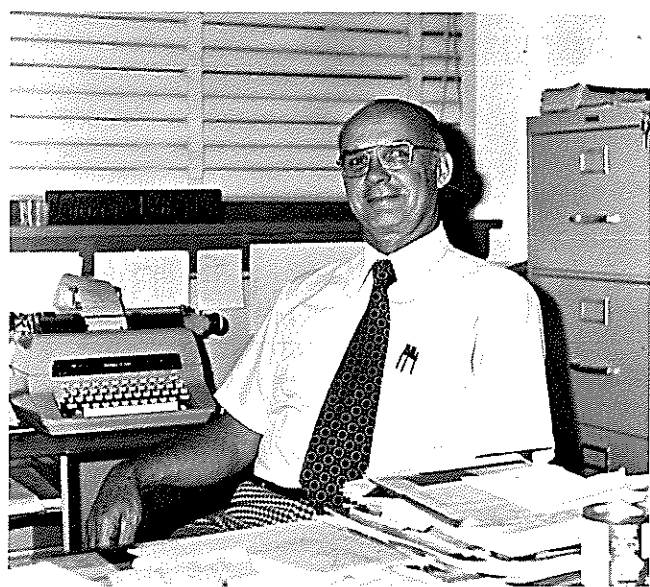

Johnnie G. Roberts assumed the duties of Kermit Junior High Principal in July 1976.

Although new to KJHS, Mr. Roberts was not new to Kermit or Kermit Schools. He began teaching Biology at KHS in the fall of 1952 and continued as a classroom teacher until he was named Assistant KHS Principal in 1960.

After serving as Assistant Principal for 11 years, he left Kermit in June 1971 to become the Assistant Executive TASC Secretary.

In April 1972 Mr. Roberts was named Instructional Officer for West Texas Children's Home at Pyote and was then responsible for the education of the children in the Children's Home. While there he instituted a pre-school program on campus and conducted summer school classes for youngsters who needed additional help.

In January 1976 Mr. Roberts returned to Kermit Schools as science teacher and was named principal in July.

One of the most noticed changes at KJHS since Mr. Roberts became Principal has been the addition of numerous mini-courses which give students additional insight into other vocational and academic areas.
