

*The 1980 Sandstorm also gives the extra-curricular activities space to show their accomplishments and the students and advisors that made it all worthwhile. And do they ever deserve it! It sure would have been dull with only homework and classes to keep us busy. Extra activities always gave us something to do and helped broaden our views on life.*

*Our annual is a step into the past. A past filled with excitement and adventure. No, we'll never forget our years at KHS and KJHS. The Sandstorm is also a step into the future. We all dream and wonder about what will happen next. The annual will always reveal to us our experiences so we may learn something that will help us in the future.*
