On May 15, the Junior Class of KHS presented their version of Heywood Gould's "Dracula." The play followed the basic story of Dracula but many new twists were added to make the production new and interesting. On the KHS stage were the traditional Dracula props including blood and bats, but there were also many new special effects that were used to create the mystery that Dracula possesses. This version of "Dracula" had been performed only one other time and it was given in the Forestburgh Summer Theatre in Monticello, New York, where the show ran for two weeks with sell-out crowds. The KHS cast included Earl Stanley as Dracula, Doug Smith as Harker, Linda Taylor as Lucy, Shannon Cooke as Dr. Seward, Kim Wright as Van Lelsing, Joe Harper as Renfield and Carla Jamison as Mina.
