The year for the varsity cheerleaders began much sooner than many other students ever believed . . . as they began during the summer preparing for a very hectic, but rewarding year on the varsity squad.

One of the first tasks was to attend the annual summer cheerleading clinic and learn as much as possible in a week that turned out to be much too short.

After working diligently through the clinic, the girls returned to Kermit and then held their own clinic for the JV and freshmen cheerleaders.

At the summer clinic the Yellow Jacket cheerleaders were presented with the highest awards for their ability and enthusiasm as varsity cheerleaders.
