Mrs. Evelyn Lockwood seems to be explaining a science concept to Tee Sharp.

Does Dickie Carrasco, Edward Cutrell, and Randy Silhan know what they are doing in the Chemistry lab, or are they just posing for the camera?

Eddie Martinez, Holly Greer, and Darah Smith are showing off their G/T Biology experiment to some Purple Sage students.

Danny Hernandez and Kim Lazenby are shown working at the chalkboard with Physical Science instructor Evelyn Lockwood.

The Chemistry lab seems to be an interesting place for Kevin Hicks, Kim Hill and Lisa Carlisle.

Wow Michelle I'm such a scientist!
