

BASKET BALL

Shoot—shoot—shoot;
North end—south end
All around the gym
Our voices with the cheers we blend.

Shoot—shoot—shoot;
The guards come running in
The forwards catch a pass;
Oh boy!—we've put another basket in!

Shoot—shoot—shoot;
Look at that defense,
Every man upon his toes;
Another goal ends that suspense.

Shoot—shoot—shoot;
Echoes ring from far and near
Because every man has done his best
Cries of victory we hear.

WHAT WE DID

Junior High started her year's work at the beginning of the fall term, which opened September 7. We organized our classes with one hundred and seventy-five students under the supervision of the High School Principal but the enrollment increased so rapidly that it became necessary to separate into a unit of our own and Mr. Casey was elected to act as principal of our department.

The social part of the year began with the Hallowe'en party on the last day of October. There was every conceivable kind of witch and hobgoblin present; even the boss of the world below was present.

On November 11, following the custom of the school, we gave a special Armistice Day program. Several prominent speakers were present, and the students attended in a body.

On November 19 we had our first chapel program, "The Womanless Wedding." The comedy was very enjoyable.

December 18 the faculty had their first party at the Cafeteria in the form of a banquet. From what we heard every one had a very nice time.

On Tuesday afternoon before school closed for the Christmas holidays, we had a wonderful Christmas party in the spacious gym. There was a real Santa Claus present and plenty of candy, nuts and almost enough fun. Out a half day early! Of course we were very, very glad. The teachers all hurried home where they had ten days to get acquainted with home folks again.

On March 20 June Brahamey was elected the May Queen for the Spring Festival given by the gym girls, after two weeks race with two other very popular girls of the seventh grade. The contest netted \$71.70.

On March 21 the manual training classes put on a very nice display of their woodwork.

On April 1 some of us discovered what dunces we really were. Quite a few had already decided that a little work might be in order and had set to work to prepare themselves for one of the greatest events of the year, the Interscholastic League Contests, which were held at Kermit and Alpine. It was awfully hard because spring weather was not conducive to hard study, especially in Wink. But we succeeded in winning the majority of the contests of which we were very proud. There was also the spring pageant practice. But finally we were ready and the pageant was presented on April 30 to its usual large crowd of interested spectators.

May 15 the Home Economics girls gave an exhibition of their work they had done during the year. Each girl modeled the things she had made. We discovered that a great many of the Junior High girls could sew very well.

And then, so soon that we could hardly realize it, the year's work was over, and summer vacation was before us. Of course we were glad the work was done, but to us who held our seventh grade diplomas it was sad, too, for we will have to leave this department to enter High School in the fall to climb a little higher up the hill of knowledge. But taken all in all, it was a glorious year. May there be many more for Wink Junior High School.
