TO AN ANNUAL STAFF

Heads bent with care,
 Days spent in honest toil,
 Hours spent in pulling the hair,
 'Tis enough to make any staff's blood boil.

Worry? A ton of it,
 Mistakes? A million or so!
 And mixed-up pages that will not fit.
 It really takes all this to make an Annual go.

Moods? You would ask!
 Trouble? A barrel full!
 And write-ups that sure are a task,
 It's all found in the making of an Annual.

Click, click goes the typewriter! Whiz, whiz goes someone on a "beat." "Why did you make the trip to New York? What was the reason for going?" These are some of the questions that some reporter asks the superintendent after a sojourn in the great metropolis of the U. S. Click, click, again, and at last you see before your eyes The Whirlwind, which is so popular among the students.

And now as you read these numbered pages you see another task that has been made a reality

by the same group known as The Journalism Club. And may I ask, is this annual, as well as the school paper, not worth all the worried looks that sometimes were present on the faces of the members and its sponsors? Is this club not a credit to your school? Their purpose has been to always bring to your mind memories of pleasant happenings in your school.

Click, click, Whiz, whiz, Worry, worry, on through life they'll go, trying to bring happiness to others through their Journalistic talent.
