There is quite a lot of sand and grit here in Wink and people seem to thrive on it. At least, we've found it so with our football fellows. Plenty of it has been transferred to them and it certainly shows up strong in a game. It's the old Wildcat pluck and spirit fighting its way to the end.

When these Wildcats descended on their prey in the deep shadows of the jungle, they were sure to give them a fight for their lives. The victims may have escaped alive, but they realized the strength of the lively team of Wildcats.

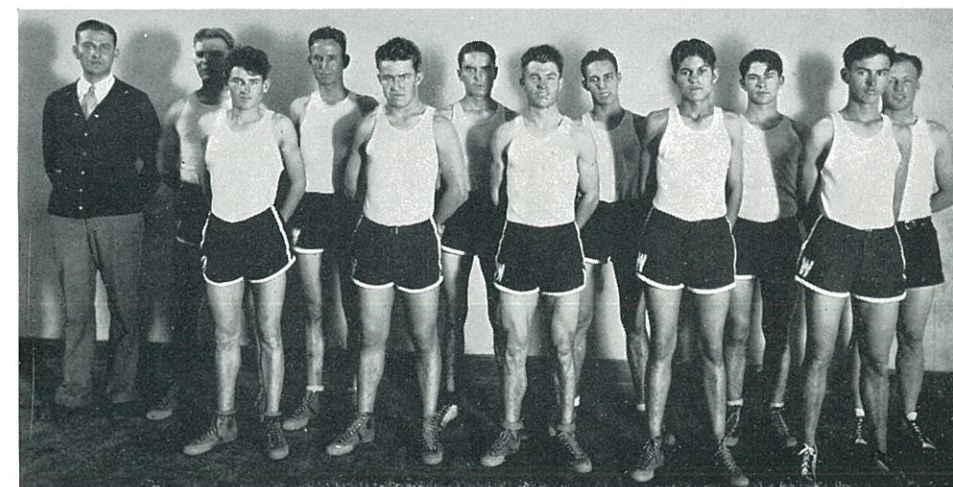

We do not know how many of these boys will be here next year, but we know that we will welcome them with open arms if they come back and that we will shed bitter tears if they do not.

Wink High School witnessed some of the most exciting basketball games this season because of the good playing of the "team of terms." When these boys went into a game the school was almost sure of a success. Their captain, Rusty King, led his men to many triumphful victories.
