

# THE BUTLER COMPANY

ARCHITECTS

LUBBOCK, TEXAS

*Architects of Wink Public School Building*

Miss Cearley: "Have you ever had appendicitis?"  
Miss Robinson: "Well, I was operated on, but I've never felt quite sure whether it was appendicitis or professional curiosity."

Mr. Nuzum: "Charles, please follow the work on the board."  
Charles Wight (rising): "All right. Where is it going?"

Mary Jane (talking to a stranger who had never been in Wink before):  
"Oh, yes, we have the safest railroad in the country. A collision on our road is impossible."

Stranger: "Impossible! How do you get that?"  
Mary Jane: "Why, we have only one train."

Gas Machines for Furnishing Heat for Science and Domestic Science.

## SCHAAR

Laboratory Apparatus and Supplies for Physics and Chemistry, Biology, Physiography, Physiography, General Science.

## TO OUR EDITOR

After lessons are over, and all are free  
Ruth takes her place  
With a smiling face  
And works and works endlessly  
For us all.

First it's cutting out pictures of you  
Then it's a story  
Of some won glory  
But smilingly she works, never blue  
For you and me.

She arranges places in the book,  
She wants the best  
And will not rest  
Until we each have our nook  
In the Annual.

Then give cheers for Ruth,  
Our editor is she,  
Sweet as can be.  
In her mouth speaks the truth.  
Our editor.
