#### SUPERINTENDENT'S MESSAGE

As we close the 1938-1939 school year, we are mindful of the many opportunities it has presented. Our associations in Wink High School have been of such a nature that the year's work has been most pleasant.

The true end of education is to unfold and direct aright our whole nature. Education must not merely make men wish to live in a democratic state; it must make them fit to be democratic citizens. Educational ends and opportunities cannot possibly be reached without democratic cooperation.

Teamwork has always been a vital factor in the Wink Public Schools both in the classroom and out, and it is my candid opinion that unless you are a team worker you have little chance to succeed under modern conditions. It is through teamwork that tolerance, good fellowship, and companionableness is developed. He who would take all and give nothing; he who cannot rise to the give and take level, can never hope to become a genuine team worker.

Carefully analyze your make-up and if you are lacking in this vital factor in democratic living, adjust yourself that you might meet the requirements of a good team worker.

If you continue to improve in all of the avenues of service, your life shall surely be rich and complete.

LEE JOHNSON.
