

### Principal's Message

The years I've spent in Wink High School will be a cherished memory to me. In retrospect I consider the opportunities that have been mine to have a small part in moulding the lives of youth and it is my fondest hope that my influence has been for good. If perhaps a few lives have been made richer by my having touched them, then I feel well repaid for my efforts. My experiences here have been indeed pleasant ones and I rate the boys and girls of Wink High School with the finest in the world.
