## SUPERINTENDENT'S MESSAGE

Rounding out over a quarter of a century in the public schools of Texas as teacher, principal, and superintendent, leaves me very convinced that no nobler work can be found than that of helping mold the minds and hearts of the youth of our land. You notice that I mention the heart along with the mind. I do this because I am firmly convinced that it is more than useless, and worse than folly, to leave out either. To merely attain knowledge is not enough. Knowledge without the proper attitude makes a dangerous person. We need to strive towards a broader concept of education. Bigotry can result when emphasis is misplaced.
