

The one thing that most elementary kids looked forward to in Jr. High was getting to play in their favorite sport or cheering for the team. The young Wildcats couldn't wait to get in pads and play football while the girls were ready to play volleyball or become cheerleaders.

It was a joy to watch them learn and grow in a game. They'd get so frustrated when something went wrong and so excited when they scored the final point of a game. The Jr. High cheerleaders were always right there to give a supporting hand.

They've come a long way since elementary and you can bet we'll be seeing a lot of action from the young Wildcats. They're showing promise of a great Varsity team to come!

"Orange Crush"
Troy Rattliff puts the opponent out. Troy was a great asset to the young team.
