Everyone looks so enthused as Mrs. Spear, the sixth grade teacher looks over the class. The reason for the "thrilled" look on their faces is because they were taking a test.

Students in the Elementary Building look forward to the sixth grade for many reasons, not the least of which is Mrs. Shirley Spear. Mrs. Spear has taught many sixth graders over the years in and out of her classroom. The sixth graders are the leaders in elementary, the "Seniors of Elementary"; and they set good examples for the younger students. The sixth grade is a large stepping stone in their life. It means they have one year before entering Wink Junior High School. It is the first year they can play in the band, try out for cheerleader, and start preparing for the drastic change Jr. High will bring them.
