

We Have The Look

...
A new addition was added to the band this year. One member from each class in the high school band was elected to represent that class on the band council. Together the council and officers made decisions. They were often asked for their opinion on certain issues by Mr. Fuller. Decisions were made when necessary, especially when they urged members to practice before contest. Overall the councils and officers did their duty proudly.

Band Officers:

Mr. Fuller attempts to attract the bands attention but fails to. Only Veronica Serna payed attention to him.

Joe Wall's words: "I'd get down on my knee's for you, if you would only pass me" Amy thought about it.

At 18 degrees on a Monday morning, the band shows determination to be #1. The band got a 2nd division but it was worth the pain.

Look Mr. Fuller, we learned how to form a strait line and we're in the right step. But even with that accomplishment, no smiles were managed that morning.
