

One of the greatest dreams of most elementary students is thinking about the chance to play their favorite sport or be able to cheer for the young cars. They just couldn't wait to put their pads on for football, play their first home volleyball game. They always gave 100% in everything they did. They had the finest coaches and sponsors and total support of their parents. There were some great moments and some bad times but they always hung in there; and show great promise for a great varsity team in the near future.

Coach Nichols is doing the bunny-hop. He was happy for the young Wildcats touchdown.
