

Checking On Jr. High

This year we have different things going on in Jr. High. First of all, we have a new science teacher, Mr. Gray. A former Wildcat himself, who has brought enthusiasm to the lab.

The 7th graders are enrolled in a new semester course through the Home Economics Department. The Life Management Skills Class is a new class state wide which teaches skills in everyday living.

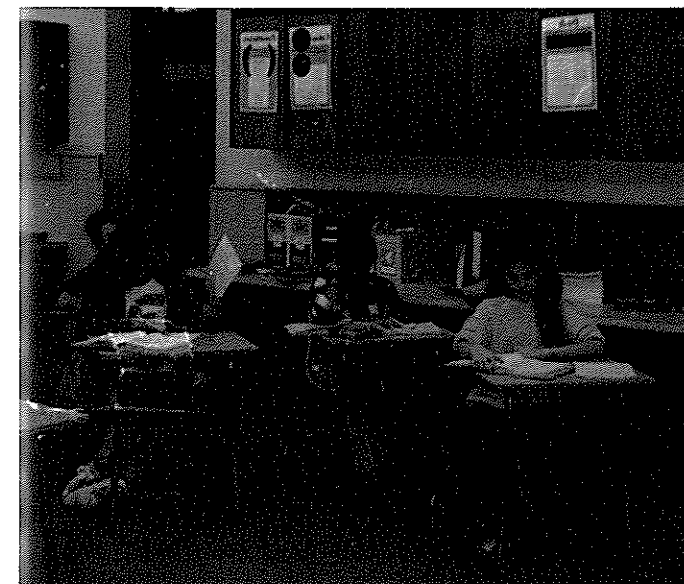

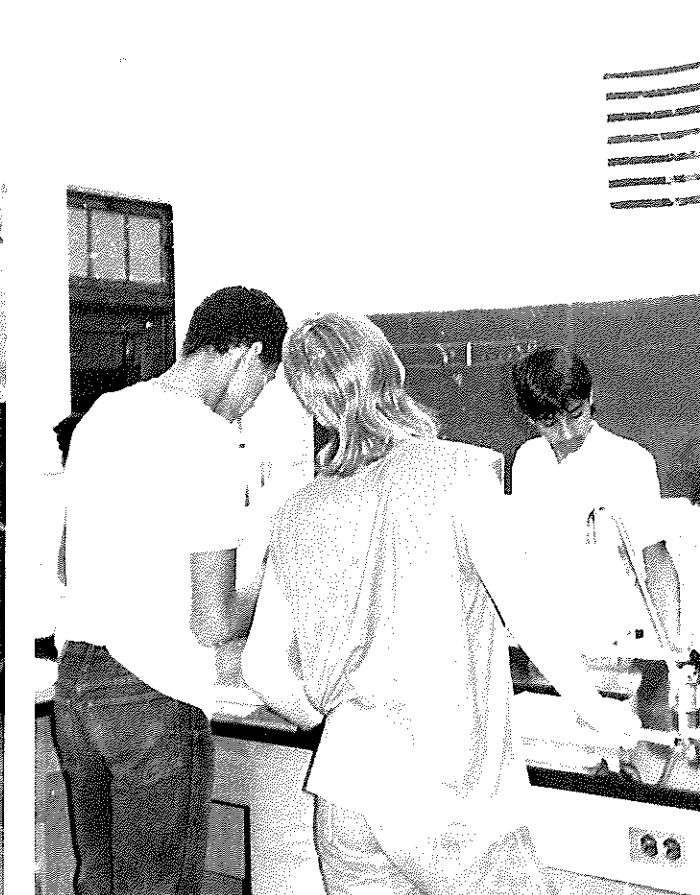

On your marks, get set, write. Jeffery Watts wins the race and waits for his classmates to finish.

The Computer Literacy class enjoys working on programs.

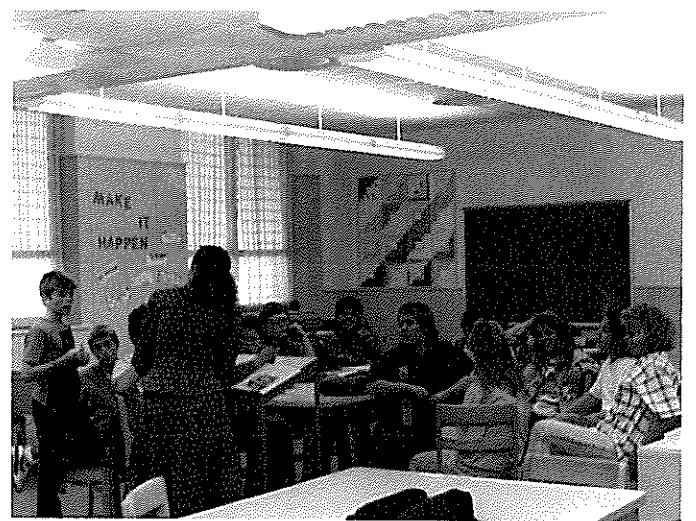

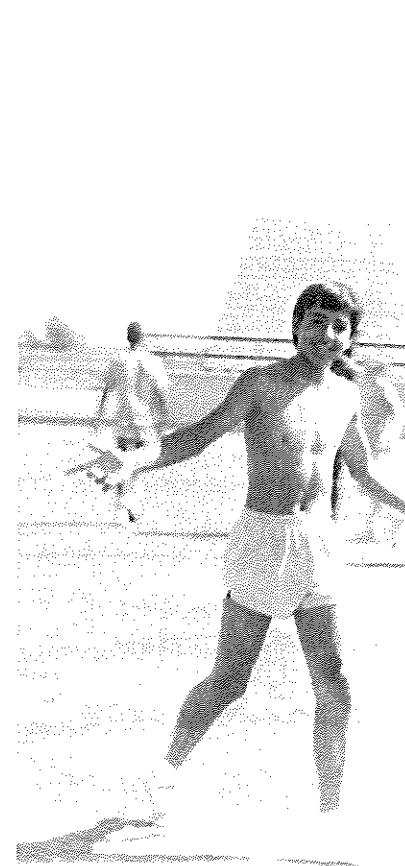

Kody appears to be having a homework attack. His friends were intent on finishing.

Carolton Gillette, Micha Roundtree, Peter Lara and Jennifer Marrufo work on measuring planets.

Erin Jones, Karina Carrillo, and Denise McGuire look over their notes at the last minute.

Watch out Mr. America, here comes Peter Lara.

Waylon Drinkard seems to really be interested in what Mrs. Thomas has to say.
