

Behind The Scenes

As people hurry through the academic day, students as well as faculty, sometimes overlook the valuable contributions of these behind the scenes people. Their duties include keeping the computer lab working, cleaning, maintaining vehicles, helping little ones across the street, keeping up with books and helping students and faculty research pertinent topics, insuring the students get to college with the money they need, planning, preparing and serving healthy meals and other services of which most of us are unaware. The school is dependent on and grateful to these who keep the operation going.

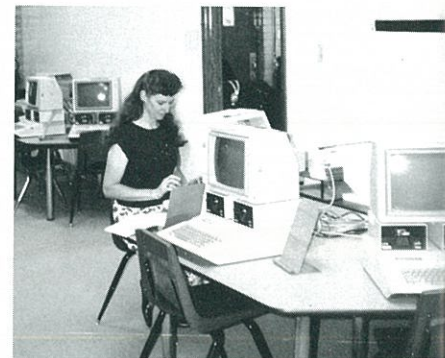

Ghost Busters! Kathryn Wicker is known for her ability to bust dust and with this equipment, she would probably be able to get rid of ghosts, too.

Dawell Criswell, local president, MC's an ATPE Variety Show. Money raised provided funds for two scholarships for graduating seniors.

Sharon Winn monitors student progress as they work in the library. She is always willing and ready to help people find the material they need.

Help! My thumb is tuck! Harry Sharp is always willing to stop what he's doing to fix things or help with unexpected problems.

Becky Loffin enters information into the computer. She, Mrs. Cole, and Mrs. Criswell spend many hours keeping the computer lab in working order.

The cafeteria "crew" prepare to serve lunch. They guarantee good food with a smile.
