Clayton Hawkins plays Santa in the Christmas Parade.

Third graders learned many new and interesting things during the year. Skills new to these students included cursive writing, multiplication, and division facts. The students also worked on research papers and learned how to use encyclopedias and other resources properly. Even though they had to learn all of these difficult tasks, they were still able to have fun like kids should.

Andy Hernandez poses for the camera while Katie Scott and Krystal Carrasco enjoy reading their books.
