

# Rock, Rock 'Till You Drop

Baad Car Band members kicked off the concert season with great jive and enthusiasm. Members of the Baad Car Band traveled to Winter Park, Colorado, in April for the fourth annual Music Ski Festival. After driving all night for sixteen hours, the band performed under adverse conditions. Students of the band were tired and no one was able to clean up before they performed. But, band members worked together and still came out on top. The Baad Car Band received a first division and the best band in Class A competition.
