

Helping The Wildcats Rock To The Top

8 to 4

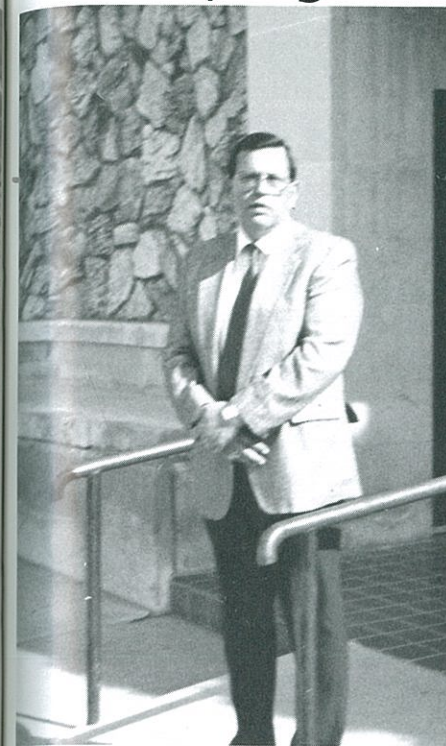

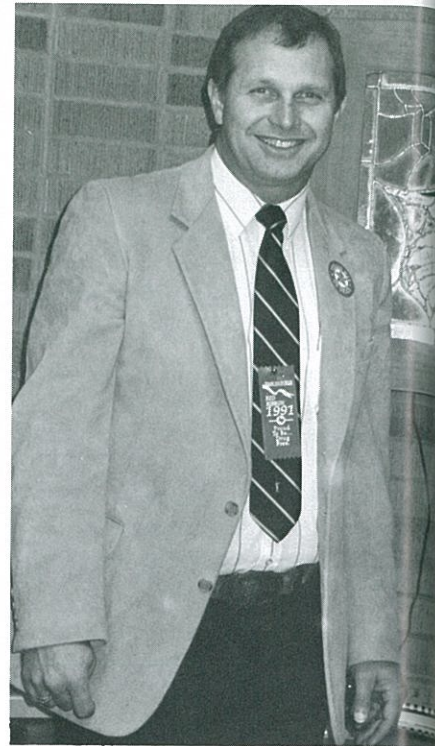

Seeing that the students of the Wink-Loving ISD received the best education possible, administrators tackled their jobs with everything they had making sure the school operated efficiently and within guidelines set by the state and the Texas Education Agency. Thanks to administration, the W-LISD ran smoothly during the 1991-92 school year.

In his first full year as superintendent, Mr. Maxie Warts brought into the year many changes and a new outlook on academics. New High School Principal, Steven L. O'Quinn, helped with these in several ways. One of the most important was helping students adapt to changes, which

included Monday morning assemblies, morning announcements and the Student of the Week Award. Mr. Danny Carrillo, elementary principal, has incorporated many of these changes and new ideas in the elementary.

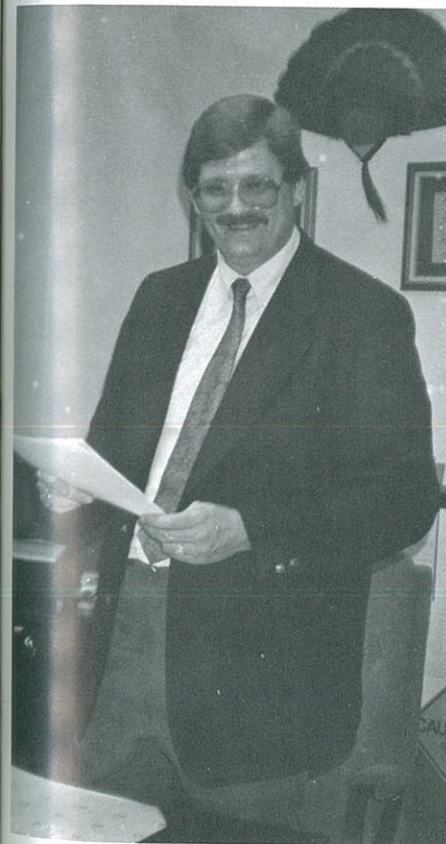

The school board also underwent changes as new board members Ronnie Hawkins and J.L. Dodd were elected to the board in the spring.

Board members took care of many executive decisions to keep the district running smoothly. They voted in September to establish a scholarship fund to aid graduates attending a college or trade school.
