

WINK ELEMENTARY SCHOOL

It's A Small World

Elementary teachers have a big impact on their students' lives. Elementary is the foundation for the rest of a student's educational career. The teachers in the Wink Elementary form a strong foundation with hard work and determination to help these students. Many elementary teachers choose their profession to help care for young people. When asked why they choose the profession, answers vary, but the most common is to make a difference in young lives.
