The five musketeers (Dessie York, Lacy Morton, Bear Haring, Rudy Armendariz and Raudel Villalpando) take time out from their busy second grade schedule to have some fun.

The second graders can hardly wait to move on to the third grade. They say they will leave plenty of work for the upcoming second graders. This year's second graders promise next second graders they will have plenty of work and activities to do, including things such as cutting out paper images, gluing things, reading all of the books and even drawing. They would like to say "Hasta La Vista" to the second grade.

Kendra Casteel works hard to finish her drawing before the bell rings.
