

Student Council Sets Up Shorts Code

"A dream is like a river ever changing as it goes, a dream is like a vessel you must follow where it goes."

This year's Student Council officers and representatives spent their summer camp at Angelo State where they were separated and grouped into new councils with strangers. Each council came up with school colors, a school song, mascot, and a school name. The Student Council brought back many great memories and excellent ideas for the years to come.

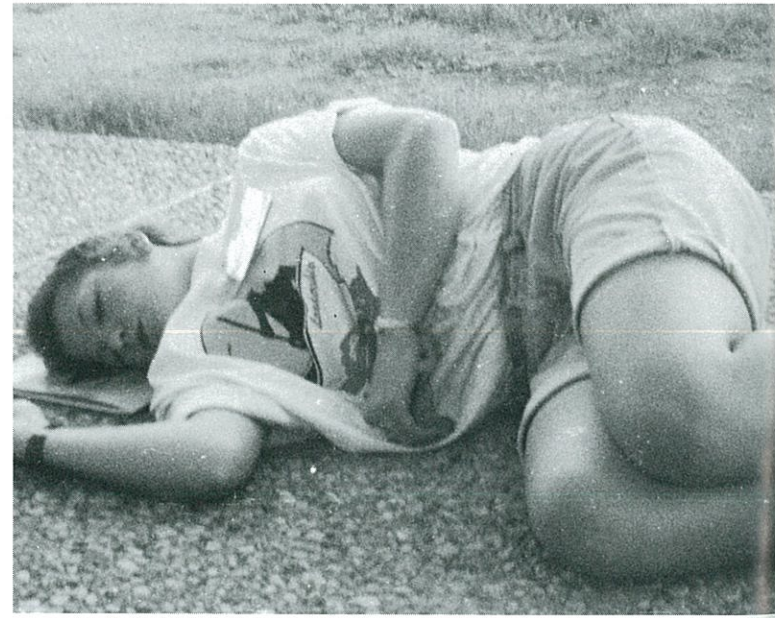

Activities included sponsoring dances, Red Ribbon Week, Christmas hayride, teacher appreciation, and skits. The Council set up a proposal for the school board to allow students to wear shorts.

Through the many activities and long council sessions, Geta Wilson found a little bit of time to take a nap on the sidewalk.
