Take it to the rim

Talent, hard work and determination fell just a little short of propelling the Wildcat basketball team and Coach Jack Ruiz to the play-offs for the second straight year. Coming off an extended football season, the team took to the court for a rough road of tournament and pre-district play. The experience gained in these early games gave the team momentum to tear through the first round of district, with a standing of 3-1. But, next came the disappointing second half when the exact opposite record befell the team. This necessitated a play off game with McCamey to determine which team would advance, and good fortune was not on the side of the 'Cats. Regardless of the season's outcome, the team played with pride and character, and gave their opponents all they could handle.
